The chant "I AM MORE!" allows her industry clients to live a life where their real self (inner image) is not oppressed by the weight of their public image and brand.

It was her personal experience that led Ms. Toni on a quest to become familiar with the complexities of victimology. A survivor of sexual assault, domestic violence, and emotional abuse, Ms. Toni pressed and still continues to go against the odds. Her story does not end there. She lives the struggles of being a single mother, understands the emotional stress of living with a mentally ill family member, and sees the toll crime and economic lack has on the inner-city community. She uses that strength to help others spiritually, emotionally, and economically empower themselves. Her story covers almost the full span of human emotions and inspires others to go beyond excuses.

Through her advocacy work, I AM MORE, LLC was established. It allowed Ms. Toni to combine her expertise, experience and passion to help both victims and the offenders. Her work has allowed her to have a profound impact on the youth, specifically individuals who have been identified as "at risk". Youth who are not entwined in the juvenile justice system have not yet been classified as a negative statistic because they have not folded under societal and economic pressures, but they are 'at-risk' of becoming one. Ms. Toni addresses several areas of concentration with the youth. She has a particular passion to empower children who are mentally and physically handicap and students who have been victimized physically and/or emotionally. She is has developed a sound reputation as one who connects with students to teach them everything they need to know about bullying.

*“You are no longer a product of your past;
you are a facilitator of your future.”*

In 2009, she authored the book “I AM MORE – the Journey” where she takes the reader on a journey of self-awareness and empowerment based on lessons she learned in her life. She takes you step-by-step enabling to embrace who you are by saying “I am me!” to who you will become by saying “I AM MORE!” In addition, she has developed corresponding workshops to encourage others that being productive is mediocre. You must be “powerfully productive” because you are more!
